Total Quartz 7000 10W40

Synthetic base lubricant formulated to maintain the engine's original performance. The protection of parts against wear and corrosion is guaranteed under normal usage conditions.

- Lengthened engine life due to the anti-wear properties
- Normal road driving.

Total Quartz Energy 0W30

100% synthetic lubricant, universal. Homologated by a great number of carmakers, and compliant with the main international standards.

- Immediate engine lubrication
- Easier starting in extreme cold weather
- Optimum engine cleanliness and protection against wear
- Reduction of polluting emissions and of fuel consumption
- Extended drain intervals.

Total Quartz 9000 5W40

Synthetic lubricant designed to be suitable for longer drain intervals and to provide exceptional resistance to oxidation, for Petrol and Diesel engines. Optimised engine performance even when subjected to extreme usage conditions.

- Exceptional protection of engine parts
- Engine longevity and increased output
 - Longer drain intervals
 - Severe usage conditions.

Total Quartz INEO ECS 5W30

Low SAPS*** technology lubricant with exceptional ecological and economical performance. Fuel Economy certified. Only Low SAPS lubricant recommended by Peugeot. It optimises the efficiency and life span of Diesel Particulate Filters.

- Fuel Economy: up to 6 % in the starting phase
 - Increased longevity of the particle filter
 - Better respect for the environment
- Excellent engine protection and cleanliness
- Resistance to severe Peugeot maintenance cycles
- Increased engine power for greater driving enjoyment.

version 0808

Important Note

QUARTZ INEO ECS Synthetic anti-pollution 5W30 oil, combines anti-pollution and fuel economy attributes. In those engines designed for its use, it contributes towards Peugeot's objective to control fuel consumption and emissions. It is highly recommended for vehicles equipped with a particle filter. For further information, consult your approved Peugeot Dealer.
